The only cure.

The Southdown sheep wash is the only effectual cure for the scab in sheep, the Entozoa, in the Banda Oriental, and in this province having universally tried it when the wool began to fall off and now they reap the benefit; every sheep in their flocks grazes on entire fleece; the value of the wool is well by the timely application of this remedy would more than pay for all the sheep wash which the farmer might require for the next, two to twelve.

So many remedies have been advertized and failed that the agents feels he has to contend with a direct prejudice, but no sooner of the principal shepherd Estancieros have used the wast and proved its utility he can confidently refer to these parties if necessary.

GREAT DAY FOR B. AYRES

Arrival of the Saintoge

Arrival of the Lady of the Lake, with Cotton Seed and Glass!

Inauguration of the NORTHERN RAILWAY.

By President Mitre.

FIRST ANNIVERSARY OF **"THE STANDARD."**

YESTERDAY was one of the great- est days Buenos Ayres ever wit- nessed since the time of Juan Garay.

The citizens, both foreign and native, seemed to be prepared for

At half-past 5 o'clock A.M., everyone was up and out; the Plaza de Victoria was crowded; the Plaza was thronged; the Post-office was jammed; the terminus of the new railway was filled to over- flowing, and last not least, THE STANDARD office was besieged; for it was known that this was our first anniversary, and, by the most felicitous of accidents, the cotton seed which we so long and anx- iously expected, had at last arrived.

The jollification at the new railway was nothing in compa- rison to the blow-out at our own office. The merchants in town, the farmers in the country, the foreigners *in masse*, had so well supported, upheld, and stood by us during the past year, that we will readily be excused, by even our most sober friends, for fling- ing open our office-doors to all our supporters, and indulging for once in the champagne more than in the ink bottle.

The news from Europe even lost interest. It was known that in the States, the Northerners had another battle, and taken 500 prisoners; that the South had at last sued for peace; that in Mexico, General Forey had died from yellow fever; that in France great changes had taken place in the Ministry, and ambas sadors recalled and replaced; that in England, Garibaldi and Cardinal Wiseman, were the sub- jects of universal dispute; that wool was dear, and hides heavy. But people's minds were on some thing else, and from THE STAND ARD office in town, to the Belgrano station in the-camp, nothing was he rd save one continued "Hip hip !! hurrah !! for the British newspapers! British railroads! British cotton-seed! British wool! and British enterprise!

THE REPUBLIC OF URU- GUAY.

A BRIEF respite from the chro- nic malady of S. America, suffi- ces to give glimpses of the mag- nificent prospects which awaits each and every of the Spanish republics. It has however, too often happened that the golden fruits of Peace were placed wi- hin their reach, when the dark derbolt of war suddenly blasted them and fooled the flattering expectations. Like Tantalus of old, we see the blessings of Na- ture and industry dance before our eager vision, and finally va- nish as a mirage of the Pampas. The want of stable government has been terribly felt and titular doctors have played at politics as a game of Blind -odkey, turning up a color of one or other party- color, by chance. It is related of a witty English minister in Buen- s Aires that, every morning he would go out on his balcony and hailing the first passer-by "hullo, friend, who's governor to-day? This gave a truthful satire on S American politics.

At present there are signs and prognostics of a revolution in the Uruguay republic, after an inter- val of 5 years's tranquillity. It is being mooted in the city and in the country, in the four points of the compass.

Dr Valentin Alsina proposed the health of Dr. Sarmiento and Mr Hop- kins, who first undertook the line now called Northern, and conferred a boon on Buenos Ayres, by contribu- ting to its active development. He flatted ed the company on the co- incidence that its termini were asso- ciated with the names of Belgrano and San Martin, the heroes of Inde- pendence.

Dr Rawson coupled with railways the navigation projects of the Salado and Vermejo, which he endorsed in an eloquent discourse.

The Bishop proposed the advance- ment of B. Ayres.

Dr Elizalde toasted the foreign capital, which was flowing in to the country, to seek up its natural re- sources.

President Mitre called on the guests to drink the health of Gen. Saavedra, whom he characterised as a valuable friend and sincere coadjutor in the national labour.

D. Mariano Varela ("Tribune") reminded the meeting that 50 years ago, Gen. Lavalle assembled his troops in Buenos Ayres, to the call of liberty, while to-day the railway whistle summoned the citizens to a more peaceful purpose.

Dr A. Alsina toasted Foreign immi- gration, the great auxiliary of Buenos Ayres, which lends vigor, energy and intellect to native energy.

Mr. M. Ballo glanced dispassionately at half a century of disorder undergone by this country and wished in a happier future.

Mr. M. G. Mulhall, St Stocks, on the part of the foreign population re- turned thanks for the friendly beari given by Doctor A Alsina, and thanks to the development of Argentine re- dources, especially on the plan be announcing the arrival of the speci- al steel Rie would that the locomo- go brought from S. Fernando might be cotton, and in allusion to the En- glish and Argentine banners draped over the table, foretold them the sym- bol of fraternal amity between the two countries.

Drs. Dominguez and Acosta, of the Provincial government briefly toasted the occasion; Mr. Zimmerm- ann made a second speech, in favor of the credit and patriotism of Buenos Aires.

Gen. Mitre wound up the proce- edings by giving "The workmen" pla- cing foremost in the category. Dr. Valen-in Alsina, who received no pay but was a most arduous labourer in the good work.

The return trip was as pleasant as the first, and all arrived at the Re iro, highly gratified with the day's cele- bration. We regret being unable to give a fuller report, owing to the ad- vanced hour, and the arrival of the French packet. Suffice it to say tha nothing could have been more success- ful, and many will remember the 1st December 1862 as a happy epoch.

The Northern Railway

INAUGURATION BANQUET.

On yesterday the first section of the line was solemnly opened to traffic, and a great concourse of citizens went by the special train which con- vey- d H. E. the President, the Minis- ters of Governm nt, the Bishop, the Papal Nuncio and other dignitaries. At 11.35, the whistle was given, and the ceremony of benediction having been gone through, the train started, with some 400 passengers. In 17 minutes the journey was completed, and all alighted at the "Alsina" station; here the Juez de Paz of Belgrano, received the President and other guests, & invited them to his re- sidence where a "buffet" was laid out for their refreshment.

After a brief delay, the concourse re umed to the station, and partook of a splendid "dejeuner" provided by the Co. Among those at the head ta- ble, we noticed the chairman, Mr. Zimmerman, or whose right sat Ge- neral Mitre, and the Bishop on his left: further down on each side, were Doctors Rawson, Elizalde, Co- sta and the other members of the ministry, and some 60 citizens, inclu- ding Dr. Alsina, the Post master-ge- neral, Dn. Pastor Obligado, the Edi- tors of the various journals, the enginee rs and officials of the railway, the Briti- sh minister, and Consul, the Preside- nt and Secretary of the Bolsa, Messrs. Coghlan, Rickard, Llambi, Fair, Les- lie Simpson &c. &c.

The viands and wines were excel- lent, and great harmony pervaded the happy assemblage. The first toast was given by Mr. Zimmerman "Suc- cess to the republic" coupling with it the name of Gen. Mitre He alu- ded to the sympathy and protection received from the government, and con- cluded amid loud cheers.

The Juez de Paz of Belgrano rea- dings stated the Co. on the termi- nation of the first section.

President Mitre drank to the ex- tension of railroads throughout the Republic, that these arteries of vita- lity and progress might ramify the country, in the four points of the compass.

Dr Valentin Alsina proposed the health of Dr. Sarmiento and Mr Hop- kins, who first undertook the line now called Northern, and conferred a boon on Buenos Ayres, by contribu- ting to its active development. He flatted ed the company on the co- incidence that its termini were asso- ciated with the names of Belgrano and San Martin, the heroes of Inde- pendence.

Dr Rawson coupled with railways the navigation projects of the Salado and Vermejo, which he endorsed in an eloquent discourse.

The Bishop proposed the advance- ment of B. Ayres.

Dr Elizalde toasted the foreign capital, which was flowing in to the country, to seek up its natural re- sources.

President Mitre called on the guests to drink the health of Gen. Saavedra, whom he characterised as a valuable friend and sincere coadjutor in the national labour.

LOCAL EVENTS.

FEASTS will take place at Lujan and Moron the 8th instant in celebration of the patronage of those towns The Virgin de Luxan

The episode which this feast is intended to commemorate is found in Sir Woo Binne's Parish history of the country with full particulars,

INSECTS abound to a disagreeable extent in the Paseo Marte and accordingly police have begun to retire from it, the inconveniences being too great,

This might be easily obviated by planting alfalfa as the managers of the Plaza Parque have done already.

ELECTIONS Those which took place at the Socorro parish were very fortunate. Ba.s, Cliffs were fiercely exchanged by the enlightened voters with this exception every thing off serenely.

NEW TREATY E Sr. Ponsati has just published a short treatise on the breeding of cattle, which we have not had time to examine yet, but will do so in a few days

It seems to be comprehensive of the chief requirements of such a work and we refer our readers to the advertisement published in another column.

WESTERN RAILWAY The meeting of the company takes place to-day in the saloon in the Bolsa at 3 o'clock P. M. The object of the meeting is of the greatest importance.

JUDGES OF COMMERCE. Don José Roque Perez and Miguel Estevez Seguir have been appointed to this post by the Government

They are good admirers and able attorneys, but for that very reason it is probably they will refuse their nomination. Salaries are poor as they can make titles as much, with greater independence, out of office than in it

AUCTION—We call particular attention to the important auction which Mr B Bloghurst advertises for the 8th inst, at Mr Leslie's estancia. The whole concern, we understand, is to sold, as the proprietor has recently bought a large estancia in the partido of Barudero, and wishes to wind up the concern in Matanzas. Seldom does such a chance offer for buying good sheep at their real value as the present. The lease of the land, we believe, will be transferred to the purchaser of the premises.

On Change,

November 27th

December 1st-

Ounces opened and closed a 388 1|2, 2300 being sold for cash.

1600 for Saturday at 388 to 393 1|2.

650 for 13th Dec. at 389

200 for 21st Dec. at 395 to 398.

200 for 10th Jan. at 395 1|2.

Total sales 6150 ounces.

At the places little has been done, this being Monday which is generally a dull day and this time accompanied by the arrival of pilgrims and inauguration of the Belgrano Railway.

Sales have been too be as follows,

The cargo of salt per Dauntless, about 2500 fanegas net, sold at 16 1|2 to deliver in Concepcion del Uruguay.

The arrivals of wool in the market yesterday were perfectly enormous there is hardly room in the North plaza for the Carts. This is not to be wondered at every thing in the country is insufficient whose business proves. Over one millions arrobas of wool are lying out side in the camp, in sheep-skin and cabins, because there are no buyers. Owing to the expectation of the arrival of the Buitanger, there was literally nothing done; Farmers were tenaciously firm, and buyers were apathetic.

The news concerning wool, brought us per Saintonge, could not be better; but we cannot hold out any hope that it will much influence our market here, because the buyers are too limited for the staple.

Two millions and a half sterling worth of wools brought in here, and forced on the market. Out of the crowd of "cabalieros" who have filled the wool markets, if the principal buyers were substracted they would hardly number 50, and what is left is a lot of jobbers who buy to sell again, and thus turn the grand staple of the country into a sort of money speculation. We depreciate against this system and must say that the greatest injury the wool buyers can do themselves is to try and force the poor farmers to sell under value. A few miserable paper Dollars can made by the transaction, but the reputation of the market is injured, and the very moment the farmers can anticipate themselves from such coercion, they will.

This year many sheep farmers who never shipped a bale of wool in their lives, are bringing to try their hand at it; they see the numerous differences between the European markets and their own, and, they resolve to try the experiment. We, therefore, on behalf of the farmers who work hard all the year round, demand a little more liberality; the more the farmers makes, by his wool, the better for the Barracas—the better for the country—the better for us all.
